EDUCATION

Rutgers University, **Rutgers Business School** – New Brunswick, NJ
Bachelor's in Science, Finance | Honors: Dean's List, 2019-2023

May 2023
3.81 GPA

PROFESSIONAL SUMMARY

Forward deployed AI strategist with three years advising top-tier financial institutions on digital transformation, pipeline strategy and workflow optimization at scale. Builds and ships agentic systems daily, Midnight Jot and Fablewick as examples, with a strategic foundation managing 50M+ in annual deal volume and 200+ concurrent opportunities across clients. Translates model capabilities into workflows for business unit adoption.

AI SYSTEMS & PRODUCT FLUENCY

- Building a personal operations system that runs 100+ scripts, 50+ skills/commands, 10+ agents, and 10+ pre-action gates. The system recursively improves through iterations and ships code, autonomously reconciles trades, runs web automation.
- Shipping AI workflows end-to-end: self-rendered charts, graded assessments, programmatic document pipelines (ReportLab + matplotlib, Playwright HTML to PDF), on routined schedules.
- Engineering pre-action gates that catch classes of automation error before execution (cost and blast radius, irreversible deletion, identifier verification, negative-result verification). An operational risk control layer applied to AI output. Each gate originated as a result of AI hallucinations.
- Building products on the stack: [Midnight Jot](#), a journaling capture app where the prompt is the schema and paragraph-level timestamps make the pause between thoughts measurable. [Fablewick](#), an open-source AI storybook library on a provider-agnostic model layer.

WORK EXPERIENCE

Accenture LLP, Morristown, NJ

May 2023–Feb 2026

Business Consultant

- Owned the deal workflow for a book of financial institutions (Mizuho, SMBC, MUFG, Dai-ichi Life): hundreds of concurrent Salesforce CRM opportunities covering millions in annual deal volume for client and delivery.
- Drove platform release and adoption for Morgan Stanley's Home Loans division: wrote the user stories, ran the sprint cadence, and reported business-unit value on rollout so the people funding it could see what had changed.
- Delivered as subject matter expert and liaison between clients, business users, and cross-functional teams, gathering intel on key initiatives to support account expansion.
- Redesigned how work entered and moved through the delivery queue across concurrent engagements, cutting backlog by 30% in six months and raising sprint velocity.

Corient, Morristown, NJ

Mar 2022–Jul 2022

Wealth Management Intern

- Supported high-net-worth clients across retirement, tax, investment, and estate strategies while conducting due diligence on hundreds of investment funds to evaluate prospectus alignment, benchmark performance, and risk parameters.
- Led a Capstone advisory engagement applying financial planning principles to increase portfolio efficiency and generate projected tax savings.

LEADERSHIP/CAMPUS INVOLVEMENT

Rutgers Future Scholars Dream Team, New Brunswick, NJ

Apr 2014–Present

Ambassador Alumni, Treasurer, Director of Community Service

- Managed treasury operations for 10+ events while building an interactive mentoring environment for 2,000 first-generation and financially disadvantaged middle and high school students across Rutgers University.

SKILLS & INTERESTS

- **Technical:** Agentic AI Stack (Claude Code, Codex, Cursor, MCP connectors, scheduled agents, n8n automation), AI Strategy & Workflow Orchestration, Audit & Discovery, Salesforce, JIRA, Workday ERP, Python, SQL, Playwright
- **Interests:** Basketball, Running, Meditation
