EDUCATION

Rutgers University, Rutgers Business School New Brunswick, NJ May 2023
Bachelor of Science in **Finance** | Honors: Dean's List, 2019–2023 3.81 GPA

SUMMARY

Three years delivering into regulated financial services across product delivery and GTM sales delivery, including platform adoption and enablement. Builds on the agentic stack daily, with Midnight Jot, Fablewick, and mann.rodeo live, on a personal operating system of 25+ agents and 9 pre-execution frameworks in Claude Code and Codex.

EXPERIENCE

Accenture Morristown, NJ May 2023–Present
Analyst, Consultant

Product Delivery

- Drove platform release and adoption for Morgan Stanley's Home Loans division: gathered user requirements, developed acceptance criteria, facilitated communication between UAT, dev teams, and business units. Owned post-release training material.
- Held release quality against a fixed deadline, 500 tickets in 10 business days at 30 a day: took the pace to the business unit early, secured a 1-week extension, raised throughput to 35 to 40 a day, and kept the final days for review.
- Redesigned how work entered and moved through the delivery queue across concurrent engagements, cutting backlog 30% in six months and raising sprint velocity.

Sales Delivery

- Managing Salesforce CRM pipeline strategy across 200+ opportunities for multiple financial services and insurance clients, owning pricing analysis, deal structuring, and proposal development (RFIs, RFPs) on the sales delivery side supporting \$50M+ in annual deal volume.
- Owning pricing analysis, proposals (RFIs, RFPs), and SOWs, and worked with managers and delivery leads across teams of 30.
- Leading proposal builds against quarter-end deadlines: pricing, strawman deck, positioning, and demo pulled from across the business on a 2-week cadence of 2 sessions a week, daily in the final week, through the oral presentation.
- Initiating the adoption of premium AI license seats for a team of 10, then ran the team's meetings through it until transcription, delegation tracking, and CRM updates were the default; deals closed before project start on more comfortable timelines.

Corient Morristown, NJ Mar 2022–Jul 2022
Wealth Management Intern

- Supported high-net-worth clients and their advisors across retirement, tax, investment, and estate strategies. Ran due diligence on 90+ investment funds: prospectus alignment, benchmark performance, and risk parameters.
- Delivered a capstone advisory engagement: financial planning applied to portfolio efficiency and \$100K+ in projected tax savings.

Fair360 New Brunswick, NJ Jan 2020–Jun 2021
Data Analyst

- Built a JavaScript program harnessing data from 20 DiversityInc Top 50 lists (2001–2020) to conduct data analysis on participant results, which increased efficiency by 80%.
- Published monthly DiversityInc "Meeting in a Box" reports driving awareness to diverse demographics.

PROJECTS

Product

Midnight Jot (midnightjot.com): Aug 2026

- Note-taking application with paragraph-level timestamps, local-first with JSON import and export so the user keeps the data. Utilizes Supabase and GitHub Pages.

Volunteer

Fablewick (mannp09.github.io/fablewick): May 2026

- Open-source AI storybook library with 11 publications, each with three toggleable reading levels in English, Hindi, Gujarati, Spanish, and French.
- Heritage Edition and a public SOP for creating your own AI storybook are also live.

Web Pages

Personal Site (mann.rodeo): Sep 2026

- Portfolio built on GitHub Pages with Cloudflare DNS.

Clinic Redesign (case study):

- 141-page rebuild of a pain management practice site; created an interactive body atlas and a 160-rule symptom finder.

SKILLS

- **Technical:** Claude Code & Claude Cowork, Codex & ChatGPT Work, MCP connectors, API integrations, Python, SQL, JSON, Tableau, Power BI, Salesforce, Jira, Workday, MS Suite (Excel, Access, Copilot), GitHub, Supabase, Cloudflare, n8n
- **Domain:** Business Analysis, Change Management, AI Workflows, Multi-agent Orchestration, Prompt Engineering, Adoption and Enablement
