EDUCATION

Rutgers University, Rutgers Business School New Brunswick, NJ Dec 2022
Bachelor of Science in **Finance** | Honors: Dean's List, 2019–2022 3.81 GPA

SUMMARY

Four years across consulting delivery, wealth management, and data analysis in regulated financial services, including platform adoption and AI enablement. Strong AI literacy across agentic and generative AI: builds agentic use cases daily on a harness system, shipping personal, product, and volunteer projects.

PROJECTS

Personal: Sep 2026

Harness System

- Orchestrates AI agents, skills, commands, hooks, and rules across Claude Code and Codex as an AI operating model with governance gates for privacy, cost, and review.
- Runs a seven-stage delivery loop (plan, test, build, review, verify, remember, improve).

Portfolio Site (mannp.com)

- Library of projects and experience, built with Claude Code and Codex on GitHub Pages and Cloudflare.

Product: Aug 2026

Midnight Jot (midnightjot.com)

- Local-first note-taking app with paragraph-level timestamps and JSON export, on Supabase and GitHub Pages.

Clinic Redesign (case study)

- 141-page rebuild of an integrative pain management practice site; linked a 160-rule symptom finder to an open-source 3D body atlas (Human Atlas, MIT; BodyParts3D data) so patients see where symptoms sit.

Volunteer: May 2026

Fablewick (mannp09.github.io/fablewick)

- Open-source AI storybook library: 11 publications, 3 reading levels in 5 languages, a Heritage Edition, and a public SOP published.

EXPERIENCE

Accenture Morristown, NJ May 2023–Feb 2026
Management Consultant, Analyst

Product Delivery

- Drove platform release and adoption for Morgan Stanley's Home Loans division: gathered requirements, wrote user stories and acceptance criteria, and coordinated UAT, dev teams, and business stakeholders. Owned post-release training.
- Managed delivery risk and ambiguity under a fixed deadline and budget: 500 Jira tickets in 10 business days; communicated progress to stakeholders early, secured a 1-week extension, raised throughput from 30 to 35–40 a day, and protected the review days.
- Led end-to-end process improvement across concurrent client workstreams: redesigned the intake operating model and configured Jira dashboards to monitor delivery velocity, cutting backlog 30% in six months.

GTM Sales Delivery

- Led AI enablement for a team of 20: rolled out premium AI license seats and ran the team's meetings through them until transcription, delegation tracking, and CRM updates were the default, increasing deal closure velocity.
- Managed and prioritized a Salesforce CRM pipeline of 200+ opportunities by value and scope for financial services and insurance clients, owning pricing, deal structuring, business analysis, and proposals (RFIs, RFPs, SOWs) on \$50M+ in annual deal volume with managing directors and client account leads.
- Led cross-functional GTM proposal builds on weekly cadences to meet quarter-end deadlines: pricing, strawman deck, positioning, demo, and the oral presentation.

Corient (formerly RegentAtlantic) Morristown, NJ Mar 2022–Jul 2022
Wealth Management Intern

- Supported high-net-worth clients and their advisors across retirement, tax, investment, and estate strategies. Ran due diligence on 90+ investment funds: prospectus alignment, benchmark performance, and risk parameters.
- Delivered a capstone advisory engagement: financial planning applied to portfolio efficiency and \$100K+ in projected tax savings.

Fair360 (formerly DiversityInc) New Brunswick, NJ Jan 2020–Jun 2021
Data Analyst

- Built a JavaScript program harnessing data from 20 DiversityInc Top 50 lists (2001–2020) to conduct data analysis on participant results, which increased efficiency by 80%.
- Published monthly DiversityInc "Meeting in a Box" reports driving awareness to diverse demographics.

SKILLS

- Technical:** Claude Code & Claude Cowork, Codex & ChatGPT Work, MCP connectors, API integrations, Python, SQL, JSON, Tableau, Power BI, Salesforce, Jira, Workday, MS Suite (Excel, Access, SharePoint, Copilot), GitHub, Supabase, Cloudflare, n8n
- Domain:** AI Enablement and Adoption, AI Program Delivery, AI Operating Models, Business Analysis, Process Improvement, Change Management, Project Management Office, Multi-agent Orchestration, Responsible AI, Prompt Engineering
